Volunteer Craftspeople Needed for Art Installation “Red Sweaters”

- Knitters
- Crocheters
- Machine Knitters

Red Sweaters is an art installation that will be on display in San Francisco, CA! We are hand crafting (knitting and crocheting) over 1500 mini red sweaters and will suspend them in a tree. The purpose of the project is to raise public awareness about war and current events without promoting a specific view.

You can find out more about the project, the patterns for the red sweaters, what materials to use, daily updates and more at the website:

http://www.redsweaters.org

Questions? Contact info is on the website.
